On the subject of the arquisttion ol Cuba, for a wouder, he has not changed so lately. We stated the same objections to the proposition to purchase Cuba of Spain long ago, that we urged the other day, and the Lonisville Journal found toe same fault with our objections then that he findt now. He caviled and quibbled the arrangements for the redemption of the bills.

Cuba must obtain freedom by a revolution gotten up and managed by Cubans. What we object to is, that an interpretation of our new trality laws makes us the ally of Spain against her subjects in Cuba, and deprives them of the more ruley to get the aid which patriots are is no law to punish the act. obtain in such enterprises.

We should, further, now Inform Spain that erecdy redress to: her multiplied annoyantes must be given, or we should take redress into orrown hand, and put an end to the power le Cuba that is constantly perpetrating outrage upon our righta.

But we shall not offer to purchase a place b giving a hundred millious to Spain for a conutry to which she hes no title against I to inhabitants and which would answer us uo purpose without the consent of the people, in whom the rea sovereignly of the Island is vested, according to our political creed. Indeed, without the con sout of the Cubane, the possession of the Island will add no strength to this country; on the con trary, it will be a constant source of weakness and expense, and, in case of war, it would b the weakest and most assailable portion of ou

this country, all that it has been proposed to give for it, if the people of Cuba are republican and American ln sentiment; if the change of alle giauce is made by their act, and at their colicitation; we object to a purchase, because we may not obtain what we bargain for.

There is but one nutural and proper way i which an organized community, each as exists it Cuba, can come to this country, and that is, by the vote of the people concerned. They cannot be bought.

PRI. T. UNDERWOOD, OCULIST AND dinsy, success in the treatment of diseases of the eye-successing the treatment of diseases of the eye-successing, beyond even his own must assignine expectations. In restoring to sight, no only those who had been partially blind 'rom center and the control opthalmia, or inflamation or the eyes, in a great number of persons who had been blind for years, and had been absudened by the most eminen physicians as incurable and blind for life. Among the lature have been exacts of estarct, amsaros s, stai-hyloma, ptergrim, dcc, some of which have been causidance incurable, without the use of a knife or needle. A number of those patients who have been successfully trended by Dr. Underwood are residents on thickly, while those are a great many in this and city failing States, whose certificates he will publish from time time, and to which he begs leave to call attention. The mode of treatment is in a great measure peoniar to Dr. Underwood, and originated with him. It causes but little psin to the patient, and is free from the danger attending the use of the Lulie. Nothing but a doep conviction of the superiority of his system, the treatment of diseases of the cyc, could have induced him to thus come forward before the public—but his naparalleles ancease has left him no other alternative.
